Skills

- Quik learner
- Creativity and innovation
in design
- languages-strong in
python,javascrit
- Critical Thinking
- Team worker

Education

• **B.Tech Information technology** *sethu institute of technology*

2022-2026

currently doing my bachelour degree at sethu institute of technology.I am working on an exciting project called "TalkieTalk AI", where I am integrating AI-powered technologies to enhance interactive communication experiences. I have successfully developed a website for selling agricultural products

• **HSC-VHN boys higher secondary school**

2020 - 2022

completed my higher secondary from vhn boys school with 74% in state board .sslc with -79%

projects and internships

• **AI-Data Engineer** *Whatslegal.ai*

During this internship i demonstrate a exceptional skills and dedication to his work and made significant contribution to the team, particularly in the development of Ai powered solutions developing and implementing Ai models to inprove legal document analysis

• **Agri-based projects** *Harvest to Home*

Designed and developed a user-friendly e-commerce platform connecting agricultural product suppliers directly with farmers, enabling streamlined purchasing and delivery processes.

• **Talkietalk -AI**

TalkieTalk AI is a friendly and lovable AI companion designed to bring warmth and connection to those who feel alone. It's more than just a chatbot—it's a supportive friend, always ready to engage in meaningful and uplifting conversations. Through advanced AI technologies, TalkieTalk AI aims to create a truly personal and caring chat experience
